**BORGWARD - GOLIATH - HANSA - LLOYD MEETING**  
**18 - 20 MAY 2018**  
**at Roeselare (West Flanders)**

Dear Borgward Friends,

We invite you, your family and your friends for our 34th International Annual Meeting for Borgward, Goliath, Hansa and Lloyd enthusiasts. All admirers of Borgwards, Goliaths, Hansas and Lloyds are welcome to join us.

This year our starting point is in the town of Roeselare, in the heart of West Flanders.

Roeselare has more than 60,000 inhabitants and was from the 10th century an important industrial and commercial place, which in 1250 got city rights and privileges. During its eventful history, the city was destroyed and rebuilt several times, each time in different architectural styles. In the second half of the 19th century the industry grew and Roeselare became known as the Manchester of Belgium. Roeselare has a number of museums, including the Cycling museum, located in the old fire brigade building. Today, shopping tourism is one of the major components of Roeselare's economy. The Ooststraat is the best-known shopping street. Roeselare fulfills a function as a shopping city in West Flanders and the city tries to emerge as the vibrant heart of the province.

Ieper (Ypres), known for the Menin Gate and the "last post", is a city in the Westhoek, in the southwest of West Flanders. The city has about 35,000 inhabitants, making it the fifth largest city in West Flanders, and the largest city in the Westhoek. The nickname of Ypres is 'the Cat City' or since the visit of Pope John Paul II, 'Peace City'. The city of Ypres, like Roeselare, had a very turbulent history, and was completely destroyed during the First World War. In the following 40 years the city was brought back into the pre-war state. For many, Ypres is the center of the commemoration of the First World War. More than 170 very well maintained military cemeteries can be found in the fields around the city.

Bruges "die Schone" (The beauty), is often called the Venice of the North, and is a pearl that we can not ignore. It's a place that somehow gets under your skin, although you can never fully understand why. Bruges is a human-sized city, made grand by its compelling history, and was awarded promptly the Unesco title of World Heritage City
