

Varenna

The most romantic place in Varenna is undoubtedly the Lovers' Walk: a short arched metal walkway, covered with climbing plants which, in hot weather, turns into a riot of colors and smells. The structure, set in the rock, overlooks the lake and leads up to the landing stage.

Menaggio

The excellence of Menaggio is certainly its lakefront which offers spectacular views of the center of the lake and the surrounding mountains. From here you can admire the profile of Bellagio and the Grigne. Its beauty and mild climate have made Menaggio a renowned holiday resort for over a century.

Vercella

The first center of Valchiavenna for those coming from the south, Vercella overlooks Lake Mezzola which makes this unique habitat suggestive, as well as offering the possibility of rowing, bathing and mooring small boats. On the shores of the lake there is one of the most scenic cycle paths that go into the Pian di Spagna Oasis for a while: a protected natural reserve, a fundamental stop for migratory fauna.

Gravedona

Overlooking the splendid setting of Lake Como and enclosed in a large inlet between the slopes of Sasso Pelo and the alluvial plain of the Liro stream, Gravedona has always been a very important artistic center. The beauty of the area (which has enchanted the whole world), the monuments and ancient architecture, make it a unique destination and one of the most beautiful towns overlooking this wonderful Lombard stretch of water.
